

## Communiqué No. 46

Tegucigalpa .- National Coordination of Popular Resistance Front of this city, reiterated the decision to ignore the regime of Porfirio Lobo, considering the continuation of the oligarchy dictatorship imposed by the coup on 28 June. We therefore declare that the Resistance has not authorized any of its members to join any of the branches of government, nor has decided to participate in the dialogue that the false government wants to validate a proposed National Plan, which is the continuation of failed neoliberal model and a means to maintain the privileges of the minority class that has usurped power.

We disclaim allegations coup media and some politicians that labeled as representatives of the Resistance to the Democratic Unification Party UD, now members of spurious National Congress and the Executive Cabinet of the dictatorship, **decisions emanating from the Board of UD** and not the will of the majority of its bases, which faithfully followed the consensual agreement of political forces FNRP for **NO** participate in the illegal and illegitimate elections of 29 November and that, therefore, repudiate the authorities Respite in the coup.

Resist and overcome!
